STATEMENT OF ADMINISTRATION POLICY

S. 1919 – Buying American Cotton Act of 2025

(Sen. Hyde-Smith, R-MS, and 18 cosponsors)

The Administration strongly supports S. 1919, the Buying American Cotton Act of 2025. This legislation advances core Administration priorities of putting American farmers and workers first, restoring domestic manufacturing, securing critical supply chains, and reducing reliance on foreign sources. It also complements the U.S. Department of Agriculture’s Great American Cotton Plan to revitalize the cotton farm economy and expand demand for U.S.-grown cotton.

S. 1919 establishes a financial tax incentive for finished products containing U.S.-grown cotton. It also requires digital supply chain tracing to ensure integrity. By boosting demand for American cotton, the bill strengthens the farm economy, supports rural communities, expands domestic textile capacity, and promotes natural U.S. fibers over synthetic alternatives. These outcomes directly advance the Administration’s America First agenda on agriculture, manufacturing, and economic security.

If S. 1919 were presented to the President, his advisors would recommend that he sign it into law.
